

My Weekly Math Fact Log:

Name: _____ # _____ Date _____

In fourth grade, you **HAVE** to memorize your math facts if you want to do well in math. All it takes is 10 minutes **EACH DAY** to see a **BIG** improvement!

Day of the Week:	How I practiced: <small>Website? Flash cards? Oral drills with a parent? Writing the tables? Worksheets? App? Jot down how you studied.</small>	How long did I practice?	Parent/Adult Signature: <small>This can be a parent, grandparent, babysitter, tutor, Champions teacher</small>
Over the weekend <small>(This is important until you memorize them!)</small>			
Monday			
Tuesday			
Wednesday			
Thursday			

Need ideas for how to practice your facts?

- Have mom or dad drill you on your fact while driving to and from activities, on the way to school, before bed, etc.
- Use my website (bookmark it!) and go to the "Math Fact Practice" page
- Ask me for a practice packet to work on! Google search for drill pages and print them out!
- Set a daily reminder on your device and make it a goal for yourself!

REMEMBER...have a Growth Mindset!
Effort = Success
